

# Happy Diwali & Prosperous New Year

Dr. M L Dhawale Memorial Trust

MLD TRUST

## Family Planning Surgery

We performed family planning surgeries for 40 women this year (& more than 100 last year). We selected women who could not qualify for the Government sponsored programs. This will help them restrict their family sizes and nurture their kids to a healthy future.

## Greetings from MLDT

It gives us immense pleasure, as always, to wish you & your families a **Happy Diwali and a prosperous new year**. We are extremely happy to share, that, with your kind support, love and affection, we continue to nurture and support health needs of mothers, children, geriatrics, immigrant workers, farmers and a host of other under-served communities.

## Happy Mothers

Antenatal, PostNatal program for over 1300 women continues in full glory. Proper supplements during & after pregnancy has substantially reduced instances of malnutrition at birth. As a double benefit this has allowed us to concentrate more on smaller number of children under intervention.

Cancer and Children with Disability will be our major focus for next year. We are gearing up for providing this much needed care to the community.

We have no doubt that you will continue to support us, as you have done over past many years.

Thank you and God Bless !
