- We provide mental & physical health care to school children
- Compliment government healthcare services to address gaps in community needs
- Community development through education, self-help groups and livelihood

Your contribution can change  
lives

## Today, the baby is healthy

Ankita (Name changed), gave birth to a pre-term baby weighing only 1.5kg. The baby was admitted to **Neonatal ICU** in MLDT hospital at a tender age of 2 hours. He could not breathe properly, had symptoms of Jaundice, was unable to pass stools, and had jerky movements. Despite standard Allopathic treatment, the baby's condition didn't improve until Homoeopathic treatment was added.

The baby showed remarkable improvement.

Today, the baby is a happy & healthy, one year old, weighing 10 Kg
